Project Title: Kelela Website

This may be a bit overzealous, but I would like for my project to be a multipanel page that looks like the viewer is looking through a vinyl box.

- **Home Page / Introduction:** This will be a brief overview of who Kelela is and also my first impression of her (if I can include that).

- **Early Life / Education**

- **Career**

- **Albums (Studio, Live, and Remix)**

- **Mixtapes & Extended Plays (EPs)**

- **Singles and Features**

- **Personal Life**

- **Sources:** This page will list sources, including the Wikipedia page itself and any photos that I end up using.
